PROFESSIONAL SUMMARY

Marketing Data Analyst and business-performance professional with 3+ years of full-time leadership experience across FMCG, e-commerce, paid media and project-based jewelry retail. Strong in Excel/Google Sheets modeling, budget planning, actual-versus-plan analysis, funnel diagnostics, revenue attribution, sales reconciliation and management reporting. Combines commercial context with data discipline to explain what changed, why it matters and which action should follow. Working knowledge of Power BI and Looker Studio, with foundational SQL/PostgreSQL skills currently being strengthened for broader Data Analyst roles.

4 Business environments FMCG + 3 jewelry projects	VND 40B Planning scope 2026 marketing investment	3.7-4.6x Validated ROAS Accounting-reconciled	105% Monthly KPI Average media delivery

ANALYTICS-FOCUSED EXPERIENCE

Digital Marketing & E-commerce Sales Lead Jul 2023 - Present
International Food Master | FMCG Manufacturing & Export | Full-time

- Build annual and monthly budget models, KPI assumptions, channel allocations and actual-versus-plan tracking for digital marketing and e-commerce operations.
- Developed investment plans of VND 3.3B for 2024 and VND 4.5B for 2025, scaling direct paid-media responsibility beyond VND 5B annually and contributing to approximately VND 40B in planned 2026 company-wide marketing investment.
- Track the business context behind performance: reported revenue increased from VND 332B in 2023 to VND 450B in 2024 and VND 670B in 2025, with VND 800B targeted for 2026.
- Use campaign, sales, product, market and budget data to diagnose KPI gaps, reforecast spend, prioritize tests and prepare concise management recommendations.
- Maintain Excel/Google Sheets reporting across campaign calendars, expense tracking, pacing, forecast variance, channel mix and product/brand allocation.

Remote Performance Marketing Team Lead - Selected Branch Project Jun 2025 - Present
PNJ - Phu Nhuan Jewelry Joint Stock Company | Jewelry Retail |

- Project-based remote engagement
- Connect media metrics with inquiry volume, sales follow-up and purchase conversion to identify funnel bottlenecks and practical optimization opportunities.
 - Measured an increase from approximately 40 to 120-170 new-customer inquiries per comparable VND 2M spend and an improvement in inquiry-to-purchase conversion from 20% to about 40%.
 - Compare audience, creative, product and campaign performance to distinguish media-quality issues from sales-process or customer-response constraints.
 - Report budget movement, campaign diagnostics and recommendations to the central Digital Manager while coordinating a distributed remote team.

Independent Performance Marketing Consultant Oct 2025 - Present
An Duy Jewelry & Pearl Live-Commerce Project | Remote | Project-based analytics and execution

- For An Duy Jewelry, reconcile daily campaign activity with accounting-supported sales records and validate VND 240-260M in monthly ad-attributed revenue from VND 57-65M spend (approximately 3.7-4.6x ROAS).
- For the pearl live-commerce project, analyze source mix across paid acquisition, returning customers and wholesale buyers; approximately 80% of VND 380-410M monthly revenue is attributed to paid live-stream acquisition.
- Translate live engagement, product response, creative performance, audience behavior and sales outcomes into budget, product and content recommendations.
- Maintain strict separation of customer data, account access and commercial information across independent client engagements.

SELECTED ANALYTICS PROJECTS

Marketing Budget Variance & Forecasting

Combined annual plans, weekly pacing and channel actuals to flag overspending, under-delivery and budget-reallocation opportunities.

Acquisition Funnel Diagnostics

Connected reach, traffic, inquiries, purchase conversion and cost per converted customer to explain where performance improved or deteriorated.

Revenue Attribution & Sales Reconciliation

Matched advertising activity with client-side sales/accounting records to validate ad-attributed revenue and avoid relying solely on platform-reported conversions.

Creator Investment Allocation Model

Structured a VND 362.5M TikTok Code Ads pool by brand, product priority, reach target and budget weight for transparent 2026 planning.

TECHNICAL & ANALYTICAL TOOLKIT

Advanced	Microsoft Excel, Google Sheets, PivotTables, XLOOKUP, SUMIFS, budget models, variance analysis, scenario planning and management reporting
Applied analytics	Marketing funnel analysis, revenue attribution, campaign-sales reconciliation, KPI definition, pacing, forecasting, channel/product comparisons
BI & visualization	Power BI and Looker Studio working knowledge; executive scorecards, filters, drill-down thinking and data storytelling
SQL development	Foundational SQL/PostgreSQL practice: SELECT, WHERE, JOIN, GROUP BY, aggregate functions and CTE basics; currently strengthening hands-on proficiency
Data sources	Meta Ads, Google Ads, TikTok Ads, YouTube Ads, e-commerce/online sales, inquiry tracking, accounting-supported revenue and budget files

BUSINESS STRENGTHS

Commercial judgment • Financial awareness • Stakeholder communication • Remote collaboration • Data confidentiality • Structured problem solving
